FYI

The report and Adrian Brown's comments.

Adrian is a Licensed Professional Engineer with decades of experience. He is a volunteer technical expert to the Vasquez Bl./ I-70 Superfund Community Advisory Group (CAG).

You should be aware of Denver's shortcomings.  
The GLO could prove to be another disaster for Denver.

Many of us believe that all council people make decisions that impact all of Denver. We direct our comments to all of you in the hopes that you may listen to your constituents in the face of the "we told you so" messes that Hancock has handed some of you over the years.

If you have questions about this report, you can contact Adrian directly.

Cheers
